(a)
Rd^2 (m^2 s^{-1})
Rail separation d (cm)
M0: ideal inverse square
M1: finite geometry
M2: geometry + attenuation
Data (1σ)
(b)
Standardised residual
Rail separation d (cm)
M1
M2
(c)
M2; fixed-offset fits
Bars: conditional statistical 1σ
Fitted μ (m^{-1})
Fixed common offset δ (mm)
